Deadlines

January 14

Exhibitors' Catalogue. Providing information to the electronic catalogue. Further, prompt placement without guarantees.

February 2

Booth layout.

- approve the booth layout, or, in the case of self-mounting, undergo accreditation. Place orders for additional equipment (if required)

February 2

Badges.

Provide a name list for badges, and a name list of space builders. Name badges will be at the Registration Desk during the days of the exhibition.

February 19

Payment.

100% payment for participation in the exhibition. (see the Contract). Companies with payment arrears to the Organizer will not be allowed to participate in the exhibition.

Forms to be provided at the entrance to exhibition

- Form №7. The list of moved-in equipment in 2 copies on the letterhead of the company, certified by the signature of the head and the seal of the exhibiting company;
- Fire safety certificates for materials and banners used (if there are banners and/or equipment at the stand);
- Form №9. List of employees working on the mounting days / dismantling of the company's booth in 2 copies, certified by the signature of the head and the seal of the exhibiting company;

Booth description

Form №2 Should be submitted by February 2. If the form is not submitted the Organizer builds the booth in accordance with the standard set up.

Shell scheme

Detailed description and standard booth configurations:

1. Complete set of exposition booths with exhibition equipment								
Equipment designation	Unit	Booth size m ²						
		4-5	6-8	9-11	12-14	15-17	18-20	24-25
Square table 700x700	item	1	1	1	1	1	2	2

Curtain	item	-	-	-	1	-	-	-
Fascia board	r.m	length of the booth at the side of the passageway						
Carpeting	m ²	on the whole area of the booth						

Check list for your booth (Form №2):

- availability of all furniture, including the contents of the "Standard Booth" and additional equipment
- Fascia board sign
- company logo (if ordered and paid)
- lamp-spots;

- socket block location 220V 700W;
- walls and open sides in accordance with the location of your booth on the exhibition plan
- wallhanger (mounted on the wall or removed on request).

Please note: equipment included in the "standard booth equipment", but not indicated by the exhibitor on the booth layout (Form No. 2) will not be provided.

Oral requests for any changes will not be accepted. Applications are accepted only in writing.

Any changes to the booth layout requested during mounting (March 16-17) double the cost of the additional equipment/service.

Installation of your own exhibition equipment and other structures within a standard booth is considered as a self-mounting (see below).

Exhibition space only

Exhibition area with carpet only. No connection to electricity (can be ordered separately).

Exhibition space only for inflatables

Exhibition area WITHOUT carpet. No connection to electricity (can be ordered separately).

Exhibition space only for self-mounting

Space only area self-mounted or mounted by a third-party must be accredited by the General Contractor <https://artcapitalexpo.com/>

For more information about the terms of accreditation, please e-mail: artcapitalexpo@yandex.ru

Rental of additional equipment

Order form for additional equipment №2.1. (see below)

When ordering additional equipment and installation work after February 02, 2026, the cost increases by 50%.

When ordering additional equipment and installation work during the exhibition mounting on March 16-17, 2026, the cost increases by 100%.

Orders will be fulfilled subject to the following conditions:

- availability of equipment;
- only after fulfilling previously received orders;
- payment for the ordered equipment to the Organizer

Technical specification of Pavilion

- Allowable construction height in pavilions: 4 meters – 1st floor, 6 meters – 2nd floor
- Permissible floor load:
 - Self-leveling floor - 500 kg/1 m²
 - Tile - 200 kg/1 m²
- Simultaneous power consumption 350 kW;
- Height of mounting gates – 3 m
- For suspended work, the permissible load on ceiling beams / trusses – up to 300 kg

Electricity

- 1) Electric power supply of the booths is provided **for the duration of the exhibition day**. During the mounting and dismantling periods, the exhibitors (or their contractors) should use battery powered instruments or rent the extension cord for temporary connection directly at the pavilion's administration.
- 2) The general power supply at the booth after the exhibition is **turned off at 18:05**.
- 3) Maximum electric power of electrical equipment connected to the sockets at the booth (standard block of three sockets at shell scheme booth) is up to 0.6 kW.
- 4) If it is necessary to increase the power of electrical equipment connected to the power supply sockets of the booth, exceeding 0.6 kW, Exhibitor should order required power in advance.
- 5) Lamps SPOT 100 W and socket blocks are installed only along the perimeter of the fascia frame of the booth. Installation of lamps and sockets at other locations is considered additional work and will be charged extra according to prices for additional services (work) and equipment.

It is prohibited:

- to connect electrical lighting equipment to the standard electrical networks of the exhibition (plug in your own lamps) not indicated in the electric wiring scheme.
- to operate electric heaters (tiles, boilers) within the electrical networks of the exhibition. All equipment connected to the electrical networks of the exhibition must be equipped with double insulated wires and must have, in addition to the neutral wire, a ground wire. Leakage current should not exceed 0.03 A.

To protect their equipment, Exhibitors are recommended to use voltage stabilizers and uninterruptible power supply units. The contractor is not responsible for the technical condition of the electrical equipment of the Exhibitor.

The Exhibitor is responsible for the good order and efficiency of his electrical equipment used at the exhibition.

On request the contractor can provide Exhibitor (in accordance with the price list) with an individual switchboard equipped with protective devices. Exhibitor must provide the technical characteristics stated in the wiring diagram of electrical connections to this switchboard at the stage of Application submitting, for this information to be included in the electrical project of the exhibition and the booth.

If connection of 380V electrical equipment is required, the technical parameters of the electrical equipment indicated by the Exhibitor on the wiring diagram include: power consumption in kW, starting current in A, voltage, installation location and type (mark) of the connector.

NOTE! While ordering the electrical connections for the industrial equipment and exhibits, consider the magnitude of starting current.

While connecting computers and other devices sensitive to power interruption and power surge, we strongly recommend you to use the uninterruptible power supply units (UPS). In case of power outage Exhibitor is to inform the exhibition Organizer. The Organizer is not liable for damage and loss incurred by electric power outage.

FOR REFERENCE: *the maximum power consumption of electricity, provided by the wiring diagram, when connected to a single socket block 220 V is not more than 0,6 kW regardless the number of sockets on this socket block.*

Typical load on electric socket:

- *Computer/printer/ video player/TV/refrigerator: 500 W; 2 A*
- *Vacuum cleaner: 1000 W; 4,2 A*

Water and compressed air supply

Water supply. Water inlet/outlet (cold). The equipment installed at the booth must be equipped with stop valves.

Plumbing equipment without valves and water drainage system is not connected. Water tanks should be equipped with drain devices. Connection to plumbing networks includes water supply with one pipeline (½ inch Ø) and drainage with one pipeline (diameter 40-50 mm) without direct connection of Exhibitor's equipment.

Compressed air is supplied by reinforced hoses (½ inch Ø) from the compressed air line by JSC VDNH workers, the Exhibitor performs the connection to the equipment at the booth. Connection may be declined due to lack of technical capability.

Internet

You can order an Internet connection and audio/video devices to equip your booth. Form №2.1.

Suspensions of structures

NOTE! When organizing the suspension, only the equipment of the General Developer of JSC VDNH - "PO Montazhnik" may be used. The application must be submitted by **March 1, 2026**.

The exhibitor submits for approval a design of the stand and suspension structure, as well as an information letter with a brief description of the design;

When examining the submitted documentation, the Organizer has the right to require making changes in the suspended structure and calculations of the suspension points;

Suspended construction should not go beyond the provided exhibition space;

Suspension and dismantling works are carried out only during the official exhibition mounting/dismantling.

Booth equipment, design, advertisement

- 1) Booth mounting and equipping beyond the standards of the organizer is at exhibitor's liability. However, the booth mounting and its equipment should conform the requirements acting on the VDNH territory. Exhibitor is required to coordinate the booth design with the Exhibition Organizer in advance. Booth design not conforming the said requirements might not be accepted or may be modified by the Exhibition Organizer at the Exhibitor's cost.
- 2) Structures of all kinds and exhibits should not overlap neighboring booths or reach beyond the bounds of the rented booth.
- 3) The use of back side of the wall panels of other booths is prohibited. Each exhibitor/mounter of the booth is obliged to mount the necessary number of own wall panels.
- 4) Installation of billboards and pillars is possible only within the bounds of the booth. Promotions of any kind outside the booth are possible only after obtaining permission from the Exhibition Organizer.
- 5) The placement of advertisements for third-party exhibitions, as well as advertising and promotional materials of organizations, institutions, firms and companies not participating in the exhibition directly, is strictly prohibited throughout all the exhibition area.

Technical requirements for advertisement

Standard booths are equipped with fascia boards with Exhibitor's company the name (10 characters, h = 10 cm, blue color). Corner booths are equipped with two fascia boards. Semi-island or island booth are equipped with two fascia boards, the third and fourth fascia board sign is charged extra.

For each additional character on the fascia board exceeding 10 characters the Exhibitor is charged extra, according to the price list.

All artworks for banners and full-color printing ordered by the exhibitor are accepted in natural size, according to graphics requirements:

- natural size (1:1);
- TIFF;
- 150 dpi (up to 2,5 m²);
70-100dpi (from 2,5 m² to 15 m²);
50-70dpi (from 15 m² to 30m²);
- CMYK;
- no compression;
- no alpha-channels;
- no layers;
- Profile EuroScale Coated v.2

All logos and texts are accepted in curves (CorelDRAW) in natural size with signed colours on ORACAL

Fire safety

Prior to the mounting, Exhibitor appoints a person responsible for the fire safety at the exhibition booth. In accordance with the law of the Russian Federation No. 69- FZ dated December 21, 1994, in case of not appointing an official responsible for complying with fire safety requirements on the area of a rented booth, the head of the organization participating in the exhibition is personally responsible. Monitoring of compliance with fire safety regulations is carried out by VDNH JSC and 3 RONPR of the Department for NEAO Directorate of EMERCOM of Russia in Moscow. The Exhibitor/contractor of the exhibition must, no later than two weeks before the beginning of the mounting works, provide VDNH JSC with information on all radioactive, fire and explosive materials and exhibits in order to take appropriate agreed security measures. The move in of these materials and exhibits without the permission of VDNH JSC is not allowed.

At the exhibition, the calculation of the fire risk is carried out in accordance with the approved Methods: "Methodology for determining the calculated values of fire risk in buildings, structures of various classes of functional fire hazard" approved by order of the EMERCOM of Russia dated 30.06.2009 No. 382, subject to changes, approved by order No. 749 of the Ministry of Emergency Situations of the Russian Federation of December 12, 2011.

For interior finishing of booth walls, offices, podiums, ceilings, and enclosures only noncombustible and fire-hardened materials should be used. All flammable materials must be treated with fire retardant composition. Draping materials made of flammable plastics proof to fire retardant compositions are not

permitted.

Welding and painting with the use of flammable dyestuffs are not permitted in the pavilion.

NOTE! All booth materials, banners, posters used for exhibits' showcasing should be provided with **No-Burn Certificates**. For all roll-up constructions, mobile booths, etc. technical data sheets should be available. Unauthorized connection of your electrical and lighting devices to the switchboard is forbidden. You can learn more about the fire safety rules in par. 10 of the "General Conditions for Organizing and Conducting Your Own Exhibitions, Congresses and Other Events on the Territory of VDNH JSC".

<https://expo.vdnh.ru/organizers/helpfuldoc/>

Air balloons (aerostats), quadcopters

Air balloons containing combustible gases are not permitted for use in the pavilion and outside area. The use of air balloons containing noncombustible gases should be authorized by the Organizer.

It is forbidden to use quadcopters on the territory of VDNH without prior approval!

Loading and unloading works.

All types of loading and unloading and rigging work on the territory of VDNH JSC is performed only by the official freight forwarder "DMW-EXPO", Ltd, www.dmw-expo.ru,

E-mail: info@dmw-expo.ru

Tel: +7 (495) 234-56-52; +7-926-248-56-16. Contact person: Yury Gorbatenko.

The use of Exhibitor's own cranes and forklifts is prohibited.

In the event that the weight of the exhibits exceeds 250 kg, in order to prevent possible damage to the floor of the pavilion, participants should provide protective wooden or rubber pads for the metal elements of the exhibits in contact with the floor. This requirement is obligatory - otherwise, the Organizer has the right to refuse companies in the placement of exhibits.

In case of any damage (floor, structures, etc.) in the pavilion, which occurred during the placement of exhibits on the booth, the exhibitor compensates full damage.

Storage of empty containers

Empty boxes, pallets and packaging material should not be stored on the booth. During the exhibition, they must be removed by the exhibitor. Any packaging materials found at the exhibition will be removed as trash. Services for the storage of large-sized containers are provided by "DMW-EXPO", Ltd.

Any boxes (pallets) left in the aisles unattended will be removed, extra charge will apply.

Security

At the exhibition perimeter of the pavilion is guarded and there is a check mode. During mounting and dismantling from 8:00 to 20:00 safety of exhibits and personal belongings at the booth is a liability of the exhibitor. Individual booth security can be arranged on request, at an extra charge.

From 20:00 to 8:00 the pavilion closes and is guarded. Exhibitor must also ensure the presence of a representative on the booth during the days of mounting/dismantling and during the exhibition working hours.

The exhibitor is solely responsible for the safety of exhibits and personal belongings on the booth from the moment of the pavilion opening until the moment it is closed and is set under security.

Exhibition cleaning

During the exhibition working hours:

- Passage cleaning between the booths (aisles) is performed before exhibition opening hours. To have the waste bin emptied, place it in the aisle in front of the booth at the end of the day.
- Booth cleaning is requested in advance at an extra charge.

During mounting/dismantling periods:

Packing materials and bulk garbage from the booth should be removed into the waste container or put in storage with the official freight forwarder of the exhibition "DMW EXPO", Ltd (www.dmw-expo.ru).

Exhibitor is liable to expenses for garbage disposal, including ordering a container for disposal of the bulk waste.

Sound, Audio and Video at the booth

During the exhibition working hours, the sound level at your booth should not interfere with the work of other exhibitors. Sound level more than 70 dB at the border of the booth is not allowed. If there are complaints from other exhibitors to a high level of sound at your booth, the Organizer has the right to demand to reduce the sound level to an acceptable value. If you ignore the above requirements, the Organizer reserves the right to turn off the source of the sound signal and fine the Exhibitor.

Photography and filming

Photography and filming of the exhibits in pavilions and on open areas is subject to the Organizer's permission.

Visa support, interpreters' services

All foreign exhibitors need a visa to enter the territory of the Russian Federation, which is obtained independently by applying to the embassy or consular office of the country of residence or through existing visa centres in the country of residence.

Interpreters' services can be requested through the Organizer.

Forwarding services and cargo handling. Customs clearance and logistics.

FORWARDER "DMW-EXPO" Ltd.

Transport and forwarding services, handling and rigging works and customs services for the exhibition cargo.

Contact persons: Gorbatenko Yuri - loading and unloading and rigging.

Puzyrnikov Roman - customs clearance and forwarding of exhibition cargo.

Bld. 452, 119, Prospect Mira, Moscow

info@dmw-expo.ru

FORWARDER IE BYLINSKY

Transport and forwarding services, and customs services for the exhibition cargo.

Contact persons: Evgeny Bylinsky

Whatsapp / Wechat: +79037230345

Email: administrator@happyland.ru

NOTE! THE ORGANIZER DOES NOT ARRANGE HAULING AND LOADING SERVICES. FOR THIS CONTACT THE OFFICIAL TRANSPORT AGENCIES OF THE EXHIBITION (SEE THE INFORMATION ABOVE)

Regulations of exhibitor's entry/exit to/from VDNH territory

During the mounting and dismantling of the exhibition, free entry for **cargo and commercial vehicles** is carried out with a one-time car pass.

The vehicle pass gives the right to free pass only on March 16-17 (08:00-20:00) and March 20 (14:00-20:00), March 21 (00.00-02.00) on all other days - entry is fee-paying according to the VDNH tariff, payment is made at the VDNH checkpoint. [Entry fee](#)

The vehicle pass can be obtained from the Organizer of the exhibition RAAPA EXPO 2026 in Pavilion 57 of VDNH at the Exhibition Registration Desk.

Regulations of exhibits move-in/move-out

- To move-in/move-out exhibits, Exhibitor should have **two copies of the letter** with the list of transported equipment (Form №7).
- Exhibitor should get a stamp "**Exhibits move-in allowed**" on both copies of the abovementioned letter at the Organizer's Registration Desk to move exhibits in. One copy with the stamp of the Organizer should be left by the exhibitor at the Registration Desk. The second copy is to be presented at the entrance to the pavilion.

Exhibitors who carry out a **self-mounting of their booth** must obtain an additional permission from the Administration of Pavilion of VDNH JSC on the letter with the list of transported equipment (Form №7).

- While moving out the equipment, Exhibitor should have the note "**Exhibits move-out allowed**" on the copy of the letter at the Registration Desk.
- Exhibitors' personnel should collect **mounting badges (according to Form №9)** at the Registration Desk to enter the pavilion for mounting and dismantling.

PRESCHEDULE DISMANTLING AND EXHIBITS MOVE-OUT DURING THE EXHIBITION WORKING DAYS ARE PROHIBITED

For the preschedule dismantling of the booth, the Exhibitor pays a penalty in the amount of 20% of the booth cost.

Hotel Booking

To book a room at a special price for exhibitors, please refer to the hotel booking information on our website: [Hotel booking](#)

	121	accordion door with lock 1000x2500			202	information desk radial R1=500, R2=1000, h=1000	

The completed layout of your booth should indicate the location of:

- All furniture, including the equipment of the "Standard Stand", additional equipment, company name on the fascia board, and the company logo (if ordered);
- Spot sconces;
- Location of electrical outlets indicating the required power and voltage for each outlet;
- Open sides in accordance with the booth location on the exhibition floor plan;
- Negotiations room (if included in the standard equipment of the booth);
- Wall hanger attachment location (attached to the wall). Can be removed on request. The cloak room is working throughout exhibition days.

Equipment included in the standard booth equipment, but not indicated on the booth layout plan will not be provided

Any oral requests for booth equipment, additional equipment, suspension structures, refusal of previously ordered equipment, changes to the booth layout WILL NOT BE CONSIDERED.

Changes in the booth layout, as well as the order of additional equipment, are accepted until February 2, 2026.

The cost of additional equipment and mounting works ordered after February 2, 2026 increases by 50%.

The cost of additional equipment and mounting works ordered during the exhibition mounting days on March 16-17 increases by 100%.

Orders will be fulfilled subject to the following conditions:
